ENGLISH VERBS _____

In English, not all verbs can be spotted very easy. In fact most English verbs you have to think about and decide if they are verbs or not. That’s why we have to use our special verb finder sentence.

SPANISH VERBS _____

Spanish verbs look the same in a dictionary with three different endings:

-er -ir -ar

When you look at a Spanish verb in a vocabulary list they will have special endings and meanings. As a beginner in Spanish, we will make it easy for you to find the verbs by teaching you the endings one at a time.

The first verbs in our vocabulary list are easy to see because they all end in the letter “o”.

English verbs you **think** about to decide what they are and Spanish you **look** at them to know the word type.
